

HECO-UNIX-top Floorboard screw

THE UNIQUE FLOORING SCREW WITH
THE CONTRACTION EFFECT

HECO-UNIX-top with variable thread pitch
Quick and easy mounting thanks to contraction effect

HECO-UNIX-top Floorboard screw

- Fast, economic and efficient assemblance: mounting and fixing of boards with just one type of screw
- Gapless joining of floorboards due to fixation with HECO-UNIX full thread
- Reduced splitting effect during insertion due to the HECO-TOPIX® tip with milling ribs
- No creaking of floorboards due to fixation with HECO-UNIX full thread
- Time saving due to the use of only one type of screw
- Easy countersinking of the head into the tongue with reduced spreading effect
- CE-marking

CONTRACTION EFFECT

1
The variable pitch of the HECO-UNIX full thread takes hold

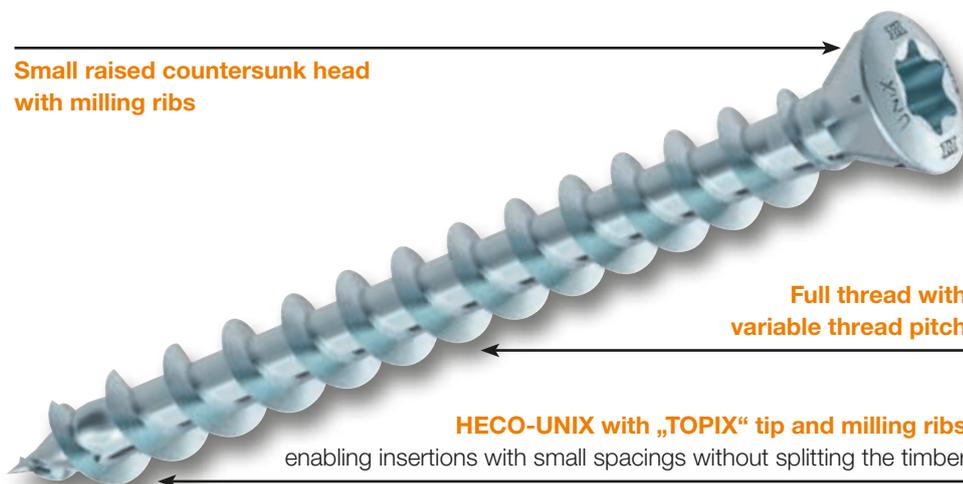

2
The smaller thread pitch means that the boards are clamped firmly together

3
Gap free axial fixing of the timber board via the HECO-UNIX full thread

Small raised countersunk head with milling ribs

Full thread with variable thread pitch

HECO-UNIX with „TOPIX“ tip and milling ribs

enabling insertions with small spacings without splitting the timber

The HECO-UNIX-top has been specially designed for flooring applications. The full thread of the HECO-UNIX-top floorboard screw with its variable thread pitch effectively pulls boards together. The “clamping effect” of the screws draws the board onto the substructure, resulting in a gap-free finish. In addition the thread secures the board axially, which prevent the annoying creaking sound of the boards “jacking effect”. Countersinking of the screw head, can be

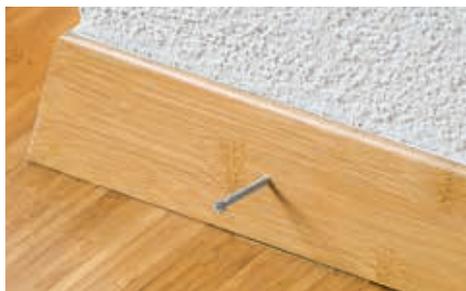

done neatly and easily, due to the under head milling ribs which self-countersink into the surface without splintering the wood around the edge of the screw.

There is no need for pre-drilling and the HECO-UNIX-top floorboard screw meets even the most demanding aesthetic requirements.

APPLICATION EXAMPLES

Glazing bead installation

Skirting board fastening

RANGE OVERVIEW

Bright zinc plated	HECO-UNIX-top Floorboard screw, small raised countersunk head with milling ribs, full threaded, T-Drive, bright zinc plated, coated			
D x L [mm]	Article No.	Recess	Box	Packing unit [pcs.]
3,5 x 40	46495	T-10	VAR2	500
3,5 x 50	46498	T-10	VAR3	500
3,5 x 60	46500	T-10	VAR2	200
4,0 x 70	46503	T-15	VAR2	200
4,5 x 50	46506	T-20	VAR2	200
4,5 x 60	46509	T-20	VAR2	200
4,5 x 70	46512	T-20	VAR2	200
4,5 x 80	46515	T-20	VAR3	200
Stainless steel A2 1.4567	HECO-UNIX-top Glass strip screw, stainless steel A2			
3,5 x 40	54182	T-10	SKV 4	200
3,5 x 50	48944	T-10	SKV 5	200
3,5 x 60	54183	T-10	SKV 5	200
